“ *Bob and I worked at TIC/Kiewit together. I was their 16 or so years and I think Bob was their a little less than that. He would help me teach RT-F and VT Level II classes in the Southern District. He was a good instructor and was always willing to help when you asked him. Great sense of humor and good story teller. The picture is the quality group and the Kiewit Welding Technical Services Group in The Woodlands Office. It was a pleasure working with him. He will be missed. Jer. 33:3.*

“ I work with Bob on daily basis in the Calcasieu Pass Project, Louisiana since day 1 also in CovePoint LNG In Maryland.. He is a very good mentor, a boss, a friend, a father. I admired him so much for his work ethics and never failed to amaze me with how good a person he is. So knowledgeable, so kind, so down to earth, and so patriotic to the Republic of Texas...

He is one of the persons in the company who acknowledges my work and never failed to brighten my day. Encourages me to do my best all the time and praises me. I know it needed to be a good leader to have a good follower, he is so good! The reason we are successful in our work is because he is an efficient leader.

I am so thankful for all the things that he had done to make me a better person. I won't forget you as my mentor and my second father and wherever you are now, I salute you. All the praises are not enough. You will always be remembered...
