Carl and I were friends and ran around together in high school and always had so much fun together. We lost touch for several years but he found me and we took up right where we left off having lots of fun together. He would call me up and say hey I'm going to come up there on my bike and kidnap you and take you riding on my bike he did and we had fun. I always have and always will cherish the memories that we have together. You were the best friend a person could ever have. You were so much fun and a big blessing to be around. He loved his kids and grandkids and family deeply and was so proud of all of them. You are deeply love and will be greatly missed. I will always cherish the memories that we made together young and old. Rest in Peace my dear friend.
