“ Mike was an outstanding man who would do anything for me. I took him a car to have some body work done on the rear end. While looking at the car, I mentioned I scratched the front end lower panel, then I proceeded to show a few more areas. I was contacted that the car was ready. Boy was I surprised! Mike went over the entire car, fixed and painted all areas making the car PERFECT! He even hand painted the pinstriping. Mike took my 97 GMC and turned it into a Tyler cruiser. He lowered it, painted the bed and box, dual exhaust, fuel gauge, fuel pump and transmission. Again he presented me with a truck that I love to show off. One more thing - the gas gauge is backward. When full it shows empty, when empty it shows full. Mike asked me to bring it up to him to fix it but I just never did. I WILL NEVER HAVE IT FIXED, IT WILL REMIND ME OF MIKE. A great person/friend/human being that I had the chance to know. God Bless.
