“ *He was one of the good guys and we have lost so many of them.. As I get older, I realize just how special they were. Norton was totally dedicated to educating children and he wanted every single student to succeed.. I was honored to be his friend and he was one of my favorite customers at the bank. We had many great conversations and his love for life was contagious.. RIP Norton.... Lou, you and your family are in my prayers....*

“ *“Every time I have prepared a budget, balanced a checkbook, prepared for filing a tax return, calculated measurements for everything from sewing, decorating, building, painting projects, and so many other applications of mathematical principles, I think of how many times I questioned Mr. Lovell, who was my math teacher at New Diana, about why I should learn all the formulas of algebra, trig, or calculus, since I had no plans to pursue accounting or economics. He would patiently respond, “Well Miss Satterwhite, because math teaches you how to think logically.” Most assuredly, he was a great teacher, a man of high moral character, and he has had a strong influence on my life to this day. My prayers and sympathies to Mrs. Lovell, Mike and Sue and all the family.*

“ *I always admired Mr Lovell. I was scared of him in High School (lol), but he was the best teacher I ever had. I learned more & was more interested in learning when I was in his class, more than any other teacher.*

“ *My deepest sympathy to all of the family. I was in the 8th grade when I met Norton Lovell about 1951. I was attending school at Indian Rock while our school in Gilmer was being repaired. He was our principal and a good one at that. He touched the lives of so many throughout the years. Later in life I played bridge with Lou and Norton. They were a beautiful couple.*
