“ *Grandma Pearl, she loved me and my siblings from the moment we met her and she has loved us as well. I will always remember the calm and soothing tone in her voice when she spoke. One of my cherished memories of my 1st time visiting Texas was the night we sat around the table and played wahoo, her laugh that night is something I will never forget. She will always be missed. She raised a great man, my father Jesse. She will forever be in our hearts and memories.*
